CHINESE WAR

This One is Raging in the City of Washington.

EXCITEMENT IN CHINATOWN

Laundry Companies Take Their Controversy Into Court.

SERIOUS CHARGES MADE

As predicted in The Star several days ago, the action of the grand jury in ignor ing the Chinese shooting case, in which Moy F. Chew, a 7th street laundryman, was charged with having shot Moy Ah Sing who does a cut-rate business at 41/2 street and Missouri avenue, has been followed by trouble in "Chinatown," and now the mem bers of the so-called Hop Chung Lung Company, or Chinese union, are retaliating for the alleged wrongs done Moy Chew. This new move was made yesterday, and last night Charlie Bing, who is also known as Ching Binn, and Ah Sing, whose leg was wounded by a pistol shot on the Fourth of July, were taken in custody by the police were arrested on magistrates' rants for threats and conspiracy, while Moy warrants were also issued, were not to be found. They are also members, so it is stated, of the Sam Lee Cut-rate Company. Heretofore only Chinese laundrymen seemed to have figured directly in this two-sided celestial fight, but now the names of Lee Hong, the banker at 314 Pennsylvania avenue, and Lee, the Chinese merchant, as well as that of Lee Tuck, who is considered above the average Chinaman, are being mentioned in the affair.

When the fight was on, about two weeks ago, the members of the Sam Lee Company came boildly to the front and made all the accusations, but when the grand jury failed to favor them with an indictment against Moy Chew they felt somewhat discouraged, while Moy and his friends were elated to the extent that they celebrated what appeared to them to be a great victory.

Moy Chew's Indiscretion. warrants were also issued, were not to be

Moy Chew's Indiscretion. Moy Chew was the happiest man in all that he had a grievance against Ah Sing and his companions. To this feeling he gave vent by using some language which would probably have caused his arrest for a violation of one of the municipal ordi-nances had he been heard by members of the Sam Lee Company instead of by a Star re-porter. All this time the members of the union kept silent. They had nothing much to say, even about the shooting, and when a Star reporter and the detectives visited them they nor multy expressed the helief

a Star reporter and the detectives visited them they promptly expressed the belief that Moy Ah Sing shot himself.

"Moy Ah Sing no likee Moy Chew," nearly every one of them said. "He makee trouble for Mey Chew. He shoot himself."

When the grand jury ignored the charge of shooting, the police had hoped that the trouble was at an end, but knowing the Chinamen as they did, they felt certain that there would be more trouble. In this they vere not mistaken, for last evening the Hop Chung Lung Company put the machinery of the law in motion. Objects of the Prosecution.

Lawyer W. Carroll Smith, who looked after the interests of this company, is in the insane asylum, and Col. W. A. Cook, assisted by a Mr. Monroe, is now looking issued last night, but additional ones, it is said, were issued today, and others may follow tomorrow. It is the intention of the Hop Chung Lung people to get the mem-bers of the Sam Lee Company in jail if pers of the sam Lee Company in Jail it possible, or drive them from the city, so the latter claim, in order to break up the cheap laundry business.

On the other hand, the Hop Chung Lung Company's members claim that the laundry question has nothing to do with the present trouble.

"Lee Tuck, Lee Hong, Lee Way, care of Quong Surg Lung, 314 Pa. ave."

This morning there was a large gathering of the celestials in Judge Miller's court in anticipation of hearing the trial of the two who were arrested last night, but Prosecuting Attorney Mullowney did not care to hear these cases until the other warrants are served, and so he continued them until Tuesday. In the meantime Lawyer William E. Aughinbaugh, counsel for the Sam Lee Company, promises to for the Sam Lee Company, promises to have Lum Kee Sing and Moy Foon in court. If, however, the police find them before the time set for the trial of the cases they will be arrested and required to give bond.

to give bond.

In one of the warrants returned to the Police Court today Ah Foon, the tea merchant, and Ah Sing are charged with having threatened the life of Yuen Wong, who lives at 346 Pennsylvania avenue, and another warrant charges the same China-men with conspiracy to defraud Yuen Wong, who alleges that they threatened and endeavored to extort money from

Claims of Opposing Counsel. Col. Cock, counsel for the Chinamen who have instituted the prosecution, says that before the investigation is concluded a number of additional charges will be made. According to his information, there is a gi-According to his information, there is a gigantic conspiracy among the members of the Sam Lee Company to extort money from other Chinamen. At least five of them, he said, have paid money to these people because of the threats, some paying as high as \$20, while others parted with only \$5, in addition to a monthly tax of \$2. This money, he said, was said to be for the purposes of the club, when, as a matter of fact, he says there was no bona fide club. Those who refused to pay, he said, were given to understand that they would meet trouble; that they would suffer personal and business injury, and they would be raided.

be raided.

Lawyer Aughinbaugh, for the Sam Lee Company, claims that there is no real justification for these arrests. They are simply endeavoring to get the Sam Lee Company out of business. Charlie Bing, the member of this company who was arrested last night, recently bought a laundry on 32d street, Georgetown. This was a cut-rate laundry, and it was there that he was arrested last night.

Speaking of the fight being made against his clients, Lawyer Aughinbaugh said that the other company had started several cut-rate laundries about the city to make their side appear better. be raided.

AGAINST BANK NOTES

General Master Workman Sovereign Proposes a Boycott.

PEOPLE URGED TO REFUSE THEM

A Treasury Opinion That Such Bovcott Might Prove a Boomerang,

AND NOT HURT THE BANKS

General Master Workman Sovereign of the Knights of Labor has issued a proclamation from headquarters in this city callng upon all Knights of Labor, Farmers' Alliance associations, reform clubs, silver leagues and other organizations to inaugurate à boycott against national bank nctes, commencing September 1, 1895, by refusing to accept them in payment. The proclamation in full is as follows: "Behind the proposition to perpetuate monetary system in this country based on

a single gold standard is a proposition to perpetuate the national banks. In fact. the national banks, in their individual capacity and through the American Bankers' Association, are the bulwarks of a single gold standard money. They realize that gold alone will not be accepted by the American people as the only circulating American people as the only circulating medium, and therefore they demand that the monetary prerogatives of government be farmed out to them, making private interests and not the public welfare the only motive for furnishing a paper circulation to meet the requirements of business.

"The national banks are responsible for the destruction of the greenbacks, the payment of the bonds in coin, the furding acts, the demonetization of silver, and all the corrupt financial legislation in this country for the past thirty years. They have boycotted and discriminated against every kind of money that promised relief to the debtor class and prosperity to the industrial masses. They are boycotters of the most cruel and merciless kind.

A Boycott Proposed. A Boycott Proposed.

"Now we propose, through the Knights of Labor, Farmers' Alliance, people's party and all reform organizations, that a boy-cott be placed on the notes of national banks, and that on and after September 1, 1895, our people be requested and urged to accept no national bank bills in any of the ordinary transactions of business. National bank notes are legal tender between the national government and the people and between the banks and the government, but not legal tender between individuals. They are not legal tender for private debts, wages or merchandise, nor any of the multifarious transactions that enter into business intercourse between individuals, and it is generally agreed that if only one person in a hundred boycotts these notes it will make the work effective and depreciate them, and force the banks into a himiliating defense of their 'fiat' money.

"A boycott of this kind will agitate the money question, test the sincerity of some doubtful free silver advocates, and stick a dagger into the heart of the money power, in turn for the dagger it has stuck into the hearts of the people. I am not entirely cold-blooded, but believe in meeting the enemy on its own field. It may be argued that "the boycott herein proposed will disturb business and make money scarcer than it already is, and that during these hard times people ought to accept any kind of money. But let it be remembered that this boycott is against a soulless combine that is responsible for the scarcity of money, low wages and business depression.

To Precipitate a Conflict. ordinary transactions of business. Nation-

To Precipitate a Conflict. "This boycott will precipitate the great onflict, with the people on one side and the banks on the other, and the issues will be as sharply drawn as in the struggle of Andrew Jackson with the old United States Bank, sixty years ago. It will force the corporations and every form of private monopoly to take sides in the contest. It will force a plutocratic press and a foreign money power to reveal the hidden hand of American politics, and establish an impass-American politics, and establish an impassable barrier between the toiling masses of America and the Shylocks and pensioned lords of the world. And if an attempt is made to force national bank notes upon the public, through such channel as they are by law made a legal tender, we will establish a redemption bureau and through existing laws force the Secretary of the Treasury to unload the locked-up green-Treasury to unload the locked-up green-backs for the benefit of the people.

"The struggle of 1896 must result in vic-tory for the common people, or the hope of American liberty is lost and recovery im-possible through methods now sanctioned by law.

The campaign must be waged against "The campaign must be waged against the combined foe of two continents, against the allied forces of the plutocracy and tyranny throughout the world, and in the light of recent events it must be the most aggressive and offensive campaign ever waged in this country. We can expect no permanent relief without a struggle, and therefore let us precipitate the conflict in time and on lines that will expose the unsound money of the sound money advocates. This can be most effectively done by a national boycott on the unsound, un-American, unconstitutional notes of the na-American, unconstitutional notes of the na-

tional bank.

"On and after September 1, 1895, let every Knight of Labor and every person whose love of justice is above the sordid interests of the tyrants refuse to accept national bank notes in payment for wages, produce, or in payment of any debt or obligation not made necessary by the limited legal-tender qualities of the notes.

"Beyeatt the notes of national banks!"

allities of the notes.
"Boycott the notes of national banks!"
"(Signed) J. R. SOVEREIGN,
"General Master Workman." Might Prove a Boomerang.

At the Treasury Department it is said that Mr. Sovereign's plan, if carried out, would prove more harmful than beneficial to the labor interests of the country, as it would contract the currency to the extent of \$211,000,000 without injuring the nation-

of £21,000,000 without injuring the national banks.

"It would not hurt the national banks at all," said Mr. O. P. Tucker, deputy controller of the currency, today. "If people should referse to receive their notes the banks would simply present them to the United States treasury for redemption and receive legal tender notes, which they would continue to use in their business. The only effect would be to withdraw that much money from circulation as repremuch money from circulation as repre-sented by the amount of notes redeemed sented by the amount of noise redeemed. It is true that under the law the acceptance of national bank notes cannot be enforced and no man can be compelled to take them as legal tender. The fact that they are accepted in every-day transactions is because the government is behind them and stands ready at any moment to redeem them with ready at any moment to redeem them with legal tender. An effort to discredit national bank notes would therefore be an attempt to depreciate the government's currency. There are only \$211,000,000 of national bank notes in circulation, while there are \$950,000,000 of other kinds of money outstanding."

MONTHLY WEATHER REVIEW. Instructions Issued by Mr. Moore, the New Chief of the Bureau. The following was issued today: Instructions No. '75.-It is the desire to

make the Monthly Weather Review, issued by the Department of Agriculture, weather bureau, at Washington, D. C., of more general interest to the public, and to issue the same not later than forty-five days after the close of the month for which it is a record, instead of six months after, as it is now issued. Notes by the editor will take a wider range, and will also include extracts from the editorial columns of the different state service publications. Special papers, prepared by members of the staff of the chief, will first appear in this publi-cation, all articles prepared during office hours being considered the property of the bureau. The statistical tables will continue, with slight modifications, forming, as they do, one of the most complete presentations of climatological data of any country in the world

the world.

The result of investigations now under way for the purpose of improving the official forecasts, and all future investigations into the philosophy of storms, will appear from time to time in this publication.

WILLIS L. MOORE, Chief of Bureau.

The Ericsson Victims Inproving.

The engineers of the torpedo boat Erics son, who were terribly scalded in Welnesday's accident on board ship, are reported as doing nicely. Wm. Merwin of Dubuque suffers most. His head and body are badly burned, but it is thought he will are badly burned, but it is thought he whi recover. John Střinsky is also a great suf-ferer. but will recover. Joseph Hamilton of New York and David Cody of Jersey City are badly burned about the neck and arms.

An investigation into the cause of the accident is being made.
